

Declaration of commitment to start the implementation procedure of the Human Resources Strategy for Researches (HRS4R), taking up the 40 principles of the European Charter for Researchers and Code of conduct for the recruitment of Researchers (C&C)

We, the Miguel Servet Public Foundation (MSPF) and its Biomedical Research Centre, Navarrabiomed, having endorsed the 40 principles of Charter and Code, notify you about our commitment to get involved into de process of implementing a Human Resources Strategy for Researchers (HRS4R) in our institution.

In the same way, the Miguel Servet Public Foundation (MSPF) notifies that is complying with the requirements of Article 32 of the Horizon 2020 Model Grant Agreement.

By implementing this recommendation, MSPF wishes to create an adequate framework for all researches, to improve the conditions for the incorporation of researchers and to encourage international collaboration.

We would like to remark that this new version of letter of endorsement replaces the one we sent last September, 2014, because now we also commit to the implementation of the HRS4R under the new rules.
