Dear Colleagues,

until the new portal is launched, we will continue to publish a compilation of open calls to fund researchers' mobility and cooperation with European teams on a regular basis.

The grants & fellowships listed below are funded by the European Commission, EU Member States or Brazilian authorities.

We hope this list will help you turn your interest in research mobility into a reality.

Grants & Fellowships
1 European Union

1.1 Horizon 2020

**Horizon 2020** is the EU funding programme for research and innovation running from 2014 to 2020 with a €80 billion budget. H2020 supports **SMEs** with a new **instrument** that runs throughout various funded research and innovation fields, enhances EU **international research** and Third Country participation, attaches high importance to integrate **social sciences and humanities**, encourages to develop a **gender dimension** in project.

**Horizon 2020** offers a large variety of funding opportunities for research and innovation activities through calls for proposals that are set out in the Horizon 2020 work programme. Access all open calls on the **Horizon 2020 Participant Portal**.

The Brazilian National Council of State Funding Agencies (CONFAP) listed **potential calls of interest for EU-Brazil cooperation** in order to encourage the participation of Brazilian researchers under Horizon 2020 calls. Some of them are currently open in diverse areas.

Several FAPs ([FAPESP](#), [FAPESC](#), [FAPEG](#), [FAPEMIG](#), [FAPDF](#)) expressed interest in funding researchers from their states to support their participation in H2020 calls and published **guidelines** with instructions to this end.

1.2 EU – **IIASA Postdoctoral Research programme**

Every year the International Institute of Applied Systems Analysis (IIASA) located in Laxenburg, Austria, provides full funding for **several postdoctoral researchers of all nationalities**.

Scholars are expected to conduct their own research in collaboration with one or more of IIASA’s **research programs** or **special projects**.

**WHO?** Researchers in natural and social sciences, mathematics, engineering, management and decision sciences who have their PhD at the time of taking up the appointment and are expected to have a proven record of research accomplishments, and a solid working knowledge of English.

Applications are accepted continually, review and selection take place twice a year. The next, and last one this year, review date is **1 October 2016**. In 2017, the first deadline is **1 April**.

1.3 European Molecular Biology Laboratory – **International PhD programme**

As Europe’s only intergovernmental research organisation in the **life sciences** and as a leading laboratory in **molecular biology**, EMBL is dedicated to promoting excellence in the molecular life sciences throughout Europe. One of the best ways to achieve this goal is by inspiring and fostering talented young scientists to turn them into skilled and creative future leaders.

The EMBL International PhD Programme is Europe’s ‘best in class’ PhD programme for the life sciences. Two-hundred and forty students from over 40 countries are carrying out PhD research at EMBL at any time.

**International cooperation**

ALL H2020 calls are open to international and more specifically Brazilian participation.

For more details on funding of applicants from non-EU countries, click [here](#). Check the latest information on Co-financing for Brazilian participation within Horizon 2020 [here](#).

Applications to the IIASA-Brazil Postdoctoral Fellowship are closed since June.
What: advanced, interdisciplinary training in Molecular Biology and its associated scientific disciplines.

Who: Applicants of all nationalities with a university degree that would formally qualify them to enter a PhD or equivalent programme in their home country.

1.4 CERN - incoming Non-Member State Postdoc Fellowship Programme

Two post-doc positions for young scientists in Theoretical Physics from Non-Member States. Applicants should have a maximum of 10 years of research experience after the degree which gives access to doctoral programmes. Deadline: 15 October 2016.

1.5 European Southern Observatory (ESO) fellowships

The European Organisation for Astronomical Research in the Southern Hemisphere - European Southern Observatory (GERMANY, CHILE) offers the following opportunities:

- **Postdoctoral Fellowships**: offer outstanding early-career scientists the opportunity to further develop their independent research programmes in an exciting scientific environment with close contact to the activities and staff at ESO. Duration: 3-4 years

  Deadline: 15 October 2016.

- **ESO Studentship Programme**: These positions are open to students enrolled in a university Ph.D. programme, preferentially but not necessarily in an ESO member state in astronomy or related fields.

Students accepted into the programme work on their doctoral project under the formal supervision of their home university, but they come to ESO to work and study under the co-supervision of an ESO staff astronomer, normally for a period of between one and two years. Studentships may be hosted either at ESO's Headquarters in Garching (Germany) or at ESO's offices in Santiago (Chile), where up to two positions per year are provided for students enrolled in South American universities.

  Deadlines: 15 November 2016; 15 May 2017

Austria, Belgium, Bosnia-Herzegovina, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Faroe Islands, Finland, France, Macedonia, Germany, Greece, Hungary, Iceland, Ireland, Israel, Italy, Latvia, Lithuania, Luxembourg, Malta, Moldova, Montenegro, Netherlands, Norway, Poland, Portugal, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey, UK.

2.2 AUSTRIA - PhD positions at Medical University of Graz (incoming)

The Medical University of Graz has published its latest call for PhD positions (Metabolic and Cardiovascular Diseases; Molecular Fundamentals of Inflammation), welcoming applications from all over the world including Brazil

Deadline: 30 September 2016

2.3 AUSTRIA - Institute of Science and Technology call for (assistant) professors

IST Austria invites applications for Tenure-Track Assistant Professor and Tenured Professor positions to lead independent research groups in all areas, as well as cross-disciplinary areas of biology, computer science and data science, mathematics, statistics and optimization neuroscience, physics.

The working language is English.

Successful candidates will be offered competitive research budgets and salaries. Candidates for tenured positions must be internationally accomplished scientists in their respective fields. Female researchers are especially encouraged to apply.

Deadlines: On-going for Professor applications. Assistant Professors: 3 November 2016

2.4 DENMARK FUTURE CROPPING - Danish Innovation Masters scholarships

Aarhus University offers four scholarships in order to give highly talented students the opportunity to conduct their two-year Master’s studies at the Faculty of Science and Technology, Aarhus University from 1 February 2017.

Students from the Republic of Korea, India, United States, Brazil, Japan and China are eligible for application.

The selected students will receive a full tuition waiver including a monthly scholarship of DKK 8,981 (app. EUR 1200) towards living expenses.
The four successful students will be linked to specific FUTURE CROPPING activities and will be expected to do an internship or a research project with a company within the FUTURE CROPPING programme.

Deadline: **15 September 2016**

### 2.5 DENMARK - *Industrial PhD and post doc Programmes*

The Industrial PhD programme is funded by the Innovation Fund Denmark. An industrial PhD project is a three-year industrially focused PhD project where the student is hired by a company and enrolled at a university at the same time. The company receives a monthly wage subsidy while the university has its expenses for supervising covered. The PhD student works full time on the project and divides his/her time equally between the company and the university.

Candidates of **any nationality**, holding or expecting to hold soon a master’s degree with excellent records may apply.

Deadlines: **19 September 2016** (Industrial Postdoc and regular Industrial PhD) ; **10 October 2016** (public sector Industrial PhD)

### 2.6 ESTONIA - *Estophilus incoming Scholarship*

The Estonian Institute offers Estophilus Scholarships to foreign master’s or doctoral students, and foreign researchers holding a PhD in order to perform a research stay in Estonia to **write a research paper on an Estonia-related topic or to gather material for it**.

The scholarship is designated to cover subsistence expenses, tuition fees and research costs for a period ranging from five to ten months. The scholarship for a five-month period is EUR 2,500.

Knowledge of Estonian is an advantage, but not a requirement.

Deadline: Two calls per year. Next deadline: **1 October 2016**

### 2.7 ESTONIA – *Dora Plus programme (incoming / outgoing)*

**OUTGOING**: Support to short-term - up to 30 calendar days - study mobility to participate in a professional conference, seminar or course, or carry out other educational and research-related activities, for example, working in libraries, using laboratories, developing study materials, working with a supervisor, participating in field work, consultations or other similar tasks. Activities abroad must be closely related to the grantee’s current teaching and research work.

**WHO?** Master’s students, doctoral students, resident physicians, young lecturers and researchers from higher education institutions in Estonia

**INCOMING**: Inclusion of foreign Master’s students and doctoral students

Support is offered to foreign doctoral students in full-time studies until the end of the nominal time of their studies and to guest doctoral students for short-term teaching and research work in Estonia (1-10 months). Foreign Master’s students can only obtain a grant when studying in Estonia full-time and for one academic year at a time.

Applications are accepted on an **ongoing basis**.

2.8 FRANCE (Ifremer) – **Call for candidates for the 2016-2017 post-doctoral grants**

Ifremer offers post-doctoral positions to young French or foreign scientists who have completed their PhD. and are motivated by development and innovation in various fields of Marine Sciences : technology and ecotechnology, aquaculture, fisheries, environment, risks analysis, physics of oceans, etc.

Postdoctoral positions are contracted for a duration of 12 months, possibly renewable for a non-renewable 6-month period.

Deadline: **9 September 2016**.

2.9 FRANCE - **PRESTIGE Postdoc programme**

The PRESTIGE programme, coordinated by **Campus France**, aims at fostering the international mobility of post-doc researchers.

Three mobility schemes are available:

- **Incoming**, allowing foreign researchers to carry out their post-doctoral research work in France;
- **Outgoing**, for researchers from France wishing to carry out a post-doctoral research project in another country;
- **Re-integration**, targeted at nationals of EU Member States or Associated Countries working in research for at least 3 years in another Third Country to come to France to further develop their career.

PRESTIGE is a co-financing programme, funding about 1/3 of the post-doc fellow’s living, mobility and research allowance, while the remaining 2/3 are financed by another partner, either public or private.

WHO? Any post-doc level researcher complying with the Marie Curie Actions mobility rules (not have resided or carried out his/her main activity - work, studies, etc. - in the country of his/her host organisation for more than 12 months in the three years immediately prior to the application deadline) may apply for funding through PRESTIGE programme. Furthermore, each applicant has to secure co-financing for his/her PRESTIGE mobility from the host organisation (for Incoming and Re-integration schemes) or sending organisation (for the Outgoing scheme).

The PRESTIGE Call for applications is open all year long with four cut-off dates. The next ones are: **30 September 2016, 31 December 2016, 31 March 2017, 30 June 2017**

2.10 FRANCE - **Institut Pasteur – Paris University International Doctoral Programme**

WHO? Applicants holding a Master degree in science, medicine or related fields from a non-French university and are fluent in English.

WHAT? stipend to cover the successful students’ living expenses and health insurance during the duration of the contract (three years).

Students conduct their research in one of the 120 laboratories of the Institut Pasteur offering cutting edge training in a large variety of topics covering Molecular and cellular biology, Genetics, Immunology, Microbiology, Genomics, Bioinformatics, Structural biology, Enzymology and metabolism, Biological chemistry, Virology, Parasitology, Medical mycology, Epidemiology,
LANEF is a ‘Laboratoire d’Excellence’ that associates five fundamental research labs based in Grenoble: Institut Néel, INAC, G2ELab, LNCMI and LPMMC. It coordinates 740 scientists, engineers, technicians, and 400 PhD students and postdocs, in condensed matter, nanosciences, and electrical engineering.

Infectiology, Imaging, Neurosciences, Developmental biology and Systems biology.

Candidates should first contact the laboratory (the sooner the better). Deadline: 14 November 2016

2.11FRANCE - Incoming LANEF Chair of Excellence Programme

Objective: Attract talented researchers to Grenoble, in order to develop a research project in one of the five laboratories. The programme is open to both junior and senior scientists, available for full time or part time position in Grenoble.

The contract duration can vary from 9 months (to be split over three years) to 3 years. The hosting period may start from January 2017.

The award package includes an internationally competitive salary, social security, travel expenses and research support for hiring a PhD student or a post-doc and additional fund for operating costs to reinforce the successful candidate’s research activities. The applicants must have a strong academic record. They must propose an innovative and ambitious research project that they will build in association with one or several laboratories of LANEF.

Deadline: 19 September 2016

2.12FRANCE – CEA incoming Enhanced Eurotalents Programme

Funds 12 to 36 months post-doctoral fellowships (ending by 31st December 2018) to carry out a research project in a French Atomic Energy and Alternative Energies Commission (CEA) laboratory in one of the four research fields: Energy, Environment and Climate Change (E2C2), Key Enabling Technologies (KET), Life Sciences and Biotechnology (LSB) and High Energy Physics, High Energy Density Physics and Physics of the Universe (HEPPU).

Eligibility: postdoctoral level and higher of any nationality.

2.13GERMANY - DAAD Scholarships for Development related postgraduate courses (EPOS)

The scholarships offer foreign graduates from development and newly industrialised countries (including Brazil) from all disciplines and with at least two years' professional experience the chance to take a postgraduate or Master's degree at a state or state-recognised German university, and in exceptional cases to take a doctoral degree, and to obtain a university qualification (Master's/PhD) in Germany.

What is supported? Individual scholarships exclusively for Postgraduate courses in Germany that are listed on the "List of all Postgraduate courses with application deadlines".

Duration of funding: 12 to 36 months (dependent on study programme)

Deadline: depends on the postgraduate course. Mainly from August to November 2016.

2.14 GERMANY – **DAAD scholarship programme in Architecture, Performing Arts, Visual Arts, Film, Dance, Design and Music** (incoming)

The DAAD scholarship programme for postgraduate study in Germany in the fields of architecture, visual arts, design / visual communication, cinema, music and performing arts is aimed at recent graduates students and those in their final year of graduation, enrolled in a Brazilian university.

The main objective is to enhance the skills of highly qualified Brazilian students by offering them additional study opportunities in their relevant areas, with the possibility of acquiring an academic title in a German higher education institution.

**Deadline:** The architectural programme will receive applications until **30 September 2016**. In other areas, the deadline for applications runs until **31 October 2016**

2.15 GERMANY – **PhD in Infection Biology and Immunology**

The ZIBI Graduate School Berlin, an international doctoral programme for research in infection biology and immunology, is looking for highly motivated PhD candidates of all nationalities.

The ZIBI Graduate School offers a structured educational programme to doctoral students of university and non-university research institutes in Berlin. PhD students at the ZIBI Graduate School address research problems in infection biology and immunology.

**Deadline:** **9 October 2016**.

2.16 IRELAND - **Science Foundation Ireland (SFI) Career Development Award Programme 2016** (incoming)

SFI Career Development Award (CDA) Programme 2016 offers opportunities to advance researchers’ careers and funds opportunities that enable the attraction and retention of researchers of all nationalities to work in an Irish Research Body, and build up their research teams and activities.

**WHO?** Researchers with between 3-15 years’ experience beyond the award of their PhD or equivalent qualification, who at the time of application will be either in a permanent, full-time academic position (either within the institution at which they wish to base their CDA-funded research or another elsewhere in Ireland or overseas), or employed on a temporary (fixed-term) contract. The applicant, who must not work under the guidance of a supervisor, will have already demonstrated research independence for example by securing a faculty position, by having several publications without the participation of their PhD supervisor, as well as having a track record with senior author publications, potentially having secured research funding and accumulated supervisory experience.

**Duration:** Four years. **Award Size:** Between €300,000 and €500,000 direct costs

**Deadline:** **16 December 2016**
2.17 LUXEMBOURG – ATTRACT Call 2017

The ATTRACT programme is designed for researchers not yet established in Luxembourg, who demonstrate the potential to become leaders in their field of research. The scheme offers promising junior researchers the opportunity to set up their own research team within one of the country’s research institutions.

Researchers are eligible between 2 and 8 years after their PhD, they must have an outstanding track record in their field which has to fit strategically to the research agenda of the Luxembourg host institution.

Host institutions offer candidates the prospect of developing an own research line. ATTRACT fellows are offered a 1-year individual coaching and a career track towards a tenured position.

Deadline: 8 December 2016

2.18 POLAND – HOMING postdoctoral fellowships for Young Researchers

OUTLINE: This fellowship targets young post-docs from all over the world (regardless of nationality), with a special focus on the return to Poland of outstanding scientists of Polish descent, at research units or companies in Poland.

RESEARCH FIELDS: subject related to the most innovative areas or that show significant application potential or importance for solving a major socioeconomic problem.

FUNDING ORGANISATION: Foundation for Polish science. Co-financed by the European Union’s Regional Development Fund (Smart Growth Operational Programme (PO IR).

WHAT IS FUNDED: Projects lasting up to 24 months will be financed under the programme. The project budget is recommended not to exceed PLN 800,000.

DURATION: up to 24 months

ELIGIBILITY: young doctors (regardless of nationality) who have had a doctoral degree for not longer than 5 years. Participation of at least one scientific partner from Poland or another country is mandatory.

Deadline: 17 October 2016

2.19 POLAND – INCOMING Fellowships Polonez 3 programme

A funding programme addressed to incoming researchers who may apply for 12-24-month fellowships in host institutions in Poland

Applicant: researcher with a PhD degree or at least four years of full-time equivalent research experience, who, at the time of recruitment by the host organisation, has not resided or carried out their main activity (work, studies, etc.) in the country of their host organisation for more than 12 months in the 3 years immediately prior to the reference date.

Funding:
- Salary (incl. mobility allowance): € 4 350 gross/month (full time contract),
- Family allowance: € 300 gross/month (for fellows whose families stay in Poland for at least 3 months),
- Research grant,
- Opportunity to participate in research and non-research training programmes organised by the NCN.
- Host Institution receives overheads at a rate of 20%.

Deadline: 15 December 2016. Call results: May 2017

2.20 SLOVAKIA – National Incoming and Outgoing Scholarships

The National Scholarship Programme of the Slovak Republic (NSP) supports study/research/teaching/artistic mobility of foreign students, PhD students, university teachers, researchers and artists at higher education institutions and research organisations in Slovakia.

The scholarship shall cover scholarship holders’ living costs (accommodation, board, etc.) during their stay in Slovakia with an allowance between 350 and 1000€/month. Duration of stay: 1-2 semester (students), 1-12 months (researchers, teachers, artists)

NSP also supports also mobility of students and PhD students studying at Slovak higher education institutions (or in case of PhD students, students studying at external education institutions, e.g. the Slovak Academy of Sciences) with a permanent residence in Slovakia at higher education institutions and research organisations abroad.

The next application deadline is 31 October 2016.

2.21 SPAIN – InterTalentum incoming post-doctoral Research Fellowships

InterTalentum, is a programme developed by the Universidad Autónoma de Madrid (UAM), which intends on building particularly favourable environment to attract the best experienced researchers in the four Focus Research Areas of CEI UAM+CSIC: Biology and Biomedicine; Nanoscience, Nanotechnology and Advanced Materials; Theoretical Physics, Computer Sciences and Mathematics and Social Sciences, Legal Sciences and Humanities.

The call offers to 9 incoming experienced researchers of any nationality and age with a PhD degree by the date of the deadline, the opportunity to develop her/his research project within the framework of a vast network of institutions participating under CEI UAM+CSIC. Applicants must be able to communicate fluently in English.

Deadline: 30 September 2016

2.22 SWEDEN – Postdoctoral Scholarship Programme in Mathematics (incoming / outgoing)

The Knut and Alice Wallenberg Foundation in collaboration with the Royal Swedish Academy of Sciences support Swedish research in mathematics.

The program includes several parts:
- Nomination of guest professors
- Postdoctoral Scholarship Program in Mathematics for researchers from outside Sweden
- Postdoctoral Scholarship Program in Mathematics for researchers with a Swedish doctors degree

Deadline: 5 October 2016

2.24 SWITZERLAND - Swiss National Science Foundation (SNSF) Ambizione (incoming)

Ambizione grants are aimed at young qualified researchers from Switzerland as well as excellent researchers from abroad who wish to conduct, manage and lead an independent project at a Swiss higher education institution.

The grants comprise the salary and project funds for a maximum of four years. Participation requirements include:

- Doctorate: At the submission deadline: submission of application generally up to four years after obtaining the doctorate (PhD)
- At the submission deadline (for medical practitioners): at least three years of clinical/practical experience after graduating. Application may generally be
submitted up to nine years after obtaining the medical licence (state examination).
- At the submission deadline: research activities for at least 12 months after the doctoral thesis at a different institution than the one where the doctoral thesis was written

Deadline: 17 January 2017

2.25 SWITZERLAND - Swiss National Science Foundation (SNSF) Ambizione Energy

Ambizione Energy grants are aimed at young researchers (up to five years after obtaining the doctorate - PhD) who wish to conduct an independently planned basic research project in the field of energy; the project may or may not be use-inspired.

The grants comprise the researcher's salary and project funds for a maximum of three years.

Deadline: 18 November 2016.

2.26 TURKEY - TÜBİTAK “2221” Fellowships for Visiting Scientists and Scientists on Sabbatical Leave

The Scientific and Technological Research Council of Turkey (TÜBİTAK) grants fellowships for international scientists/researchers who would like to give workshops/conferences/lectures, or conduct R&D activities in Turkey. Three types of visits are granted within this programme: Short-term (up to 1 month), Long-term (up to 12 months) and Sabbatical Leave (from 3 months to 12 months). All types of grants cover monthly stipend and travel costs.

WHO?

- Fellows can be citizen of any country.
- Fellows should have a PhD degree (or equivalent) or have at least five years of research experience
- Fellows should be invited by a hosting institution in TURKEY, which can be universities, research institutions, or industrial companies with a R&D unit.

Deadline: rolling basis.

2.27 TURKEY – TÜBİTAK “2216” Research Fellowship Programme for International Researchers

TÜBİTAK grants fellowships for international highly qualified PhD students and young post-doctoral researchers to pursue their research in Turkey in the fields of Natural Sciences, Engineering and Technological Sciences, Medical Sciences, Agricultural Sciences, Social Sciences and Humanities. Preference will be given to candidates who demonstrate the potential to contribute significantly to Turkey's goal of international cooperation in scientific and technological development. Duration of fellowship: max. 12 months

Next deadline: 7 October 2016.
2.28 UK – **LeverHulme Visiting Professorships (incoming)**

Awarded to UK institutions that wish to invite an eminent researcher from overseas to enhance the knowledge and skills of academic staff or the student body within the host institution. The scheme covers maintenance, travel expenses and research costs. Visiting Professorships last for between three and twelve months.

The objective of these awards is to enable distinguished academics based overseas to spend between three and twelve months inclusive at a UK university, primarily in order to enhance the skills of academic staff or the student body within the host institution. It is recognised that Visiting Professors may also wish to use the opportunity to further their own academic interests. The over-riding criteria for selection are first the academic standing and achievements of the visitor in terms of research and teaching, and secondly the ability of the receiving institution to benefit from the imported skills and expertise. Priority will be given to new or recent collaborative ventures.

Deadline: **13 October 2016**

2.29 UK – **Chevening scholarships (master’s level)**

Chevening Scholarships in Brazil are awarded to outstanding emerging leaders to pursue a one-year Master’s degree programme at any UK university. They provide a unique opportunity for future leaders, influencers and decision-makers from all over the world to develop professionally and academically, network extensively, experience UK culture and build lasting positive relationships with the UK. A Chevening award offers financial support along with the opportunity of becoming part of the highly regarded and influential Chevening global network.

Applicants from Brazil can choose any course of study at any UK higher education institution, when selecting your field of study please refer to the UK priorities in your country.

Deadline: **8 November 2016**

2.30 UK – **Ernest Rutherford Fellowship**

The Ernest Rutherford Fellowships will enable early career researchers with clear leadership potential to establish a strong, independent research programme. They will encourage talented researchers in UK universities to remain in the country and at the same time attract outstanding overseas researchers to the UK.

Each Fellowship will last for five years, with up to 12 being offered annually. The aim is to support future scientific leaders to establish a strong, independent research programme.

Ernest Rutherford Fellowships are intended for early career researchers who do not have an academic position.

Applicants must have a PhD and a minimum of five years’ research experience from the start of the postgraduate programme leading to the award of a PhD and 1 September 2017 with, normally, a minimum of two years’ postdoctoral experience.

Deadline: **22 September 2016**
2.31 UK – The Rhodes Trust: Oxford and the Rhodes Scholarship

The Rhodes Scholarships are postgraduate awards supporting exceptional students from around the world to study at the University of Oxford. Established in the will of Cecil Rhodes, the Rhodes is the oldest and perhaps the most prestigious international scholarship programme in the world, which aims to nurture public-spirited leaders for the world's future.

Deadline: 5 October 2016.

2.32 UK (University of Cambridge) - Gates Cambridge Scholarship

Gates Cambridge Scholarships are highly competitive, full-cost scholarships. They are awarded to outstanding applicants from countries outside of the UK, including from Brazil, to pursue a full-time postgraduate degree in any subject available at the University of Cambridge.

Deadline: 7 December 2016.

3 Brazil

3.1 BRAZIL (Confap) - UK (Royal Academy of Engineering RAEng) Newton Research Collaboration Programme

Supports international exchanges lasting between three months and one year between researchers in the UK and their counterparts in Brazil (amongst other countries).

Exchanges can be either one- or two-way in direction, and should form part of a collaborative research project, incorporating visits and dissemination activities.

This program supports research in biotechnology, petrochemical, telecommunications, optics, applied mechanics, geotechnical, water resources, information technology, energy conservation, materials, bioengineering, aerospace, maritime, naval, among others. The call is open to Brazilian researchers from all states. Proposals must be submitted by the British partner.

3.2 BRAZIL (Confap) – UK (the UK Academies) - Fellowships, Research Mobility, and Young Investigator Awards for UK researchers in Brazil

Brazilian State Funding Agencies, articulated by its National Council (CONFAP), are launching a call for proposal offering support to researchers based in UK Universities and Research Institutions, who are willing to work in research in Brazil, in collaboration with local colleagues.

The call offers support for researchers in the UK through:

a. Fellowships;
b. Research Mobility Grants, and,
c. In the case of UK young researchers aiming at working in universities and research institutes in the State of São Paulo, Brazil, this call also offer the opportunity of Young Investigator Grants comprising a scholarship plus a research funding grant.

Deadline: **24 October 2016**

3.3 FAPESP third SPRINT call for proposals

FAPESP launched the third SPRINT (São Paulo Researchers in International Collaboration) call, offering seed funding to support the exchange of researchers. The Call for Proposals considers the two following partnership alternatives

- Proposals in partnership with researchers whose institution has a current Agreement with FAPESP, including:
  - **Fonds de la Recherche Scientifique - FNRS**, Belgium
  - **Friedrich-Alexander-Universität Erlangen-Nürnberg**, Germany
  - **London School of Economics and Political Science - LSE**, United Kingdom
  - **University of Münster**, Germany
  - **University of Surrey**, United Kingdom

- Proposals in partnership with researchers whose institution does not have a current Agreement with FAPESP.

The grant must be used for activities as exchange of researchers, visits to research planning, international workshops and initial activities of data collection, always aiming to continue research collaboration and consolidation.

The maximum duration of each project is 24 months.

Deadline: **31 October 2016**

3.4 FAPESP Research Internships Abroad (BEPE)

This program supports short and medium term research internships abroad for recipients of FAPESP fellowships in the State of São Paulo. Thus, the BEPE fellowship levels available correspond to those available for fellowships in the State of São Paulo, as detailed below:

- Scientific Initiation (BEPE- IC), for undergraduates working in a research project;
- Masters (BEPE-MS), Doctorate (BEPE-DR) and Honors Doctorate (BEPE-DD), for graduate students;
- Post-doctorate (BEPE-PD), for talented scientists associated to research projects.

http://ec.europa.eu/euraxess
The research internship abroad is necessarily part of regular FAPESP Fellowship in the State of São Paulo and cannot be requested independently.

**Candidate requirements:**

To have an ongoing fellowship awarded by FAPESP in the CI, MS, DD, DR, PD modalities;

Proficiency in the language of the country where the research will be developed or in English, as evidenced by a formal declaration from the advisor/supervisor of the fellowship in Brazil.

The length of the research internship abroad (BEPE) depends on the modality requested. Minimum duration is one month. Maximum duration varies from four months (IC) to one year (PD).

**Deadline:** on-going

### 3.5 CAPES Full PhD abroad Programme

Offers full doctoral scholarships abroad as a complementary alternative to the possibilities offered by all the graduate programmes in Brazil; increase the level of collaboration and joint publications between researchers working in Brazil and abroad, providing greater international visibility to the scientific, technological and Brazilian cultural production and expand the access of Brazilian researchers to international centers of excellence.

Duration: 12 months; may be renewed on condition of satisfactory academic performance effective as of the date of the defense of the thesis, not exceeding 48 months.

**Benefits:**

- Monthly allowance
- Relocation allowance
- Health insurance

**Deadline:** 14 October 2016

### 3.6 Calls for proposals for Industrial R&D cooperation between Brazil and partner countries (France / Germany / Israël)

The International Cooperation on Innovation programme invites Brazilian companies to establish partnerships with foreign companies to elaborate a joint project in research and development that results in the development of new products, processes or services directed to the commercialization in the national and/or global market.

The initiative foresees the joint funding of projects using resources from the Brazilian National Development Bank (BNDES) and other government funding agencies in Brazil, while the partner country provides resources from its own government funding agencies.

**Fields on research:**

Call with France: Information and Communication Technologies (ICT), Integrated Urban Development (i.e. Smart Cities and Smart Grids), Biotechnology, Green Chemicals, Biofuels, Pharmaceuticals, Oil and Gas (including Topside, Subsea, Downhole, Reservoir technologies), Energy sectors (including photovoltaic energy and wind power) and Cosmetics

[http://ec.europa.eu/euraxess]
The call for proposals for joint R&D projects between German and Brazilian companies focuses on developing innovative products, technology-based services, processes or methods in all technological and application areas which have strong market potential.

The last call supports joint industrial research and development (R&D) between Brazil and Israel private sectors, aimed at the development of new products and processes for commercialization in the domestic and/or global markets.

Deadlines: **30 October 2016**
