**Registration:** Registration is open until November 24th through [this link](#).

## EURAXESS.be: Attractive Belgium

EURAXESS - Researchers in Motion is a pan-European initiative providing access to a complete range of information and support services to researchers wishing to pursue their research careers in Europe. EURAXESS connects researchers and entrepreneurs, allows universities and business to find talent and provides information about projects and funding.

During the event, the EURAXESS Belgium-team will give you an update about the newest developments in the Euraxess programme. We will take a look abroad, listen to some good practices in the UK and Hungary and enlighten the European VISA directives. The ImpactE & PIPERS projects focuses on the professional & social integration & skill development of researchers. How? You'll learn at our EURAXESS Belgium-event.
